

Due to the freezing temperatures over the past few weeks, many landscapes in the Cypress Head community have sustained significant damage. This will likely require the removal and replacement of various hedges, bushes, and plant beds.

To assist with your recovery efforts, the ARC is temporarily waiving the requirement for an application and approval to remove damaged vegetation. We understand that many homeowners may wish to clear their property now and wait until spring to replant.

Please be advised that before you begin any replanting, you must submit an ARC Request for approval. Your application should include a landscaping plan and a schematic identifying the specific plants, flowers, and shrubs you intend to use, as well as their locations. As a reminder, Section 3.33 of the CC&Rs requires every home to maintain shrubs in the front yard.

You must receive an official approval letter from the ARC before any replanting work begins. If you have any questions or concerns, please contact us at arc.cypresshead@gmail.com.
